

MDIA112. Television Production (Massasoit C. College)**Credits: 3**

This course provides an introduction to television production theory and practice. The course combines hands-on experience with background lectures. The student's experiences include television terminology, camera operation, switching, audio, floor plans, shot planning, picture composition, studio broadcasting procedures, floor direction, graphics, scenery, videotape, and master control. **Prerequisite: Preparing for College Reading II (ENGL092) or waiver by placement testing results.**

MDIA113. Radio Production: Theory and Practice (Massasoit C.C.) **Credits: 3**

This course covers the planning, writing, producing, directing, and performance of radio programs. The theory of sound production is also explored. The student will produce commercials, newscasts, and drama presentations as well as participate in the business side of broadcasting by developing promotions and programming schedules. Lecture: 2 hours
Laboratory: 2 hours (**require students to test out developmental reading on the Accuplacer test**)

MATH131. Introduction to Statistics (Massasoit C. College)**Credits: 3**

This course provides a basic introduction to statistics. It is recommended for students in business, social science, human resources, allied health, and criminal justice, and provides an excellent preparation for any career. Topics include descriptive statistics, probability, probability distributions, the normal distribution, hypothesis testing, estimates and sample sizes, the chi square distribution, correlation, and regression. Prerequisites: Intermediate Algebra and Trigonometry (MATH112) and Preparing for College Reading II (ENGL092) or waiver by placement testing results or Departmental Approval.

MATH121. Topics in Mathematics I (Massasoit C. College)**Credits: 3**

This course is provided for students who wish to know what mathematics is about but who do not wish to be mathematicians. Topics included are elementary logic, set theory, probability, and statistics. Prerequisite: Intermediate Algebra and Trigonometry (MATH112) or waiver by placement testing results or Departmental Approval.

GOVT105. American National Government (Massasoit C. College) **Credits: 3**

This course examines the government and politics of the United States. Major attention is given to the Constitution of the United States and the Amendments and the historical development of the national government. The powers and the actions of Congress, the President, and the Courts are covered. Consideration is given to federalism, political parties and elections, and the influence of special interest groups and the media on American political culture. This course emphasizes reading, writing, and critical thinking. Prerequisites: Preparing for College Reading II (ENGL092) and Introductory Writing (ENGL099) or waiver by placement testing results or Permission of Instructor.

***** These courses have college level pre-requisites, but may appeal to adult learners who have started work on degrees at other times or in other places. Some high school students may have enough theater experience to meet the prerequisite for Acting on Camera.**
